

Pannells continues to go from strength to strength

Pannells are pleased to confirm the continued growth of our business. Our annual turnover for 2017/18 has risen by 21% to £5.7m.

The growth is shared across all of our UK teams and advisers. Funds under management are also growing sharply and now exceed £800m.

Managing Director Frank Williamson said “these are a fantastic set of results driven from our core principles of ensuring we provide high quality advice, excellent service and real value for money for our clients. Well done to all our team”.
